

GTCTM
Control Solutions

A DIVISION OF AP4 GROUP 

The Ultimate Resource
for Power & Industrial
Control Solutions

NO MORE FORCED UPGRADES

THE GTC GUARANTEE

We service your classic industrial controls through remanufactured and new parts for ABB, Allen Bradley, Alstom, Chemetron, Bently Nevada, Emerson, Foxboro, GE, Honeywell, Meggitt, Rolls Entronic, Siemens, Triconex, Westinghouse, and Woodward.

Our large stock investment of spares Paired with our state-of-the-art repair facility, GTC is *the* dependable source to maintain your classic control systems.

KEEP THE CONTROL

WHY CHOOSE US?

GTC has redefined the industry by extending the life of your controls.

NEW & OLD SYSTEMS

We ensure that no matter the system you have in place (5 to 50+ years old), you will have controls that operate safely and reliably for as long as you need. Our protection includes an industry-leading warranty on remanufactured cards, new surplus and unused cards with a <1% return rate. GTC offers you a smart, safe, and sensible way for you to save money and to keep your operations running smoothly.

MONEY SAVER

We'll save you from costly downtime when you use one of our many services, such as, GTC's Health Check! Invest in maintenance or pay for an emergency. In addition, you can save up to 70% on repairs and 50% on replacement parts, against manufacturer's prices. Your OEM says your controls are obsolete and time to upgrade. With GTC, we call them Classics and with regular maintenance & replacement parts, you keep your controls & save millions.

GE EXPERTISE

GTC initially grew to be the world's most recognized independent support for GE Speedtronic Turbine & Excitation controls. We have the largest inventory of GE circuit boards, and other components, at our New York facility. Our Longevity™ Program provides End Users with stability and reassurance that they can continue to use their systems, which have been obsoleted by the OEM. We recommend the critical spares you should store based on our signature Pareto Analysis (80/20 Rule) for controls.

SCHOOL'S BACK IN SESSION!

Access industry-leading training for engineers, technicians, operators and more. We offer full course customization, such as, online presentations, a duration of 2-5 days, and content adapted to duration by customer request and number of participants.

These classes can be attended to refresh your knowledge of a system or to explore a system where you lack experience.

GTC PROVIDES SERVICE BEYOND THE SALE

We serve industries such as, Power Generation, Petrochemicals, Oil and Gas, Transport, Ports, Steel Plants, Cement Plants, Processing Plants, Mines and Fertilizer Plants.

TESTING & REPAIR

Experienced technicians to diagnose and troubleshoot control parts

FIELD SERVICE

Knowledgeable engineers you can rely on for operational efficiency

ASSET RECOVERY

Procurement team to exchange \$\$\$ for any surplus you may have
